

SERENITY AND SUNSETS ON SAM'S CREEK

Bridgehampton. An original Norman Jaffe designed 5 bedroom beach house has now become available along 150' of Sams Creek, a short stroll to ocean beaches. Among a handful of original houses designed by the nationally renowned romantic modernist architect along a picturesque arm of Mecox Bay, this sprawling residence was enlarged in 1994 by Jaffe for the same owners that have painstakingly maintained this striking abode since the beginning. A stunning entrance past the oversized pool leads to an open floor plan that includes the great room with fireplace, dining room, kitchen with adjacent living room and 2 guest bedrooms. A sunsplashed atrium like party room houses the 35' indoor heated pool with automatic cover beneath a 35' skylight that leads to two additional bedrooms, including a guest master suite. Upstairs the master wing opens to its own waterview balcony, a favorite perch for morning coffee and to catch the parade of returning boats and the kaleidoscope of colors bidding farewell to the sun as it dips into the bay each evening. An acre of specimen trees and intricate plantings enhanced at night by outdoor lighting shelters the property as the lawn, which hosted Jaffe's own wedding, stretches from the house right down to waters edge where swans cavort. Caressed by ocean and bay breezes that intertwine to the rhythmic sound of the crashing waves, this rare offering awaits a new owner.
