

The Property

Gone with the Wind will be the opportunity to own this plantation inspired estate if you wait much longer. A sensational location, copious amenities and gracious styling combine within a 5,500 sq ft 6 bedroom residence a short walk to Mecox Bay. Western views over a contiguous 34-acre reserve will greet the next owner and lucky guests each and every day from an elegant living room with limestone floors and marble fireplace, formal dining room and a fully equipped kitchen flanked by fireplaced family room and butlers pantry. An intimate library, powder room, pool bath, maids quarters and oversized 2 car garage complete the main level. Upstairs, four generously sized bedrooms join the master with fireplace, sitting room and walk in closets. Outside, the 2.3 acre property is graced by heated Gunite pool and sunken all weather court framed by spacious lawn and spectacular plantings. And frankly my dear... it comes furnished.
