### A VERY CHILL SAMMY'S BEACH COMPOUND AWAITS ON GARDINER'S BAY

**East Hampton.** The sun dips low over Sammy's Beach, casting a fiery glow across the waters of Gardiner's Bay. The beach, with an unspoiled sandy shoreline stretching in both directions, feels like a secret, untouched by time and spared the clamor of the world. Here, the water is a crystal-clear, Caribbean blue-so vivid it almost feels imagined-and the crowds, blessedly, are nowhere to be found. And on this quiet peninsula, with expansive water and sunset views, lies a rare opportunity to have one of the most amazing vistas in a unique setting in the Hamptons at an attractive new price. The years have seen thoughtful renovations that nod to the past while embracing the present. The main cottage stands as the heart of the property-two bedrooms both with dedicated baths, await inside, along with a great room that feels expansive and welcoming, its open-plan design flowing into a chef's kitchen built for both practicality and pleasure. The expansive glass doors bring the vast liquid backdrop right into the abode. The magic continues when you step outside where the waterside deck stretches out, as if daring you to sit, to relax, to take in the endless horizon where in your view, the water, like the hands of a clock, reaches out to Shelter Island, the North Fork, Connecticut, Plum Island and Gardiner's Island. Lounge chairs, a sectional settee, and a banquet dining table are all perfectly placed, designed to help you soak in the sunsets-each one more stunning than the last, each one a reminder that this is a place apart from the rush of life. Just across the manicured lawn, where there's room enough for games, gatherings, or quiet fireside moments, stands the second cottage. It too, is fully legal, with two additional bedrooms-ideal for guests or extended family, a place where privacy meets proximity. In addition, it is a proven income producing rental. Each house comes with an outdoor shower to wash away the day's activities. And for those seeking more, there is deeded access to Three Mile Harbor just across the street providing an opportunity to moor one's boat for water skiing or other aquatic activities. This is not just a place to visit, but a place to live, a place where you can breathe in the salty air and hear nothing but the familiar call of seagulls along with the gentle lap of waves. This is not just a beach house; it is a legacy, a rare find where nature meets a feeling of genuine chill, and the sunsets promise a beauty that is, simply, unparalleled. **WEB# 915472**
